Indian Life Cycle Assessment and Management Conference

Creating business value through sustainability strategies

ILCM is a flagship event of FICCI to develop understanding on Life Cycle Thinking in India. It serves as a platform for Indian and international Life Cycle Assessment/Life Cycle Management (LCA/LCM) experts, policymakers, academicians, producers, retailers and intermediaries to discuss and debate on latest issues in context of environmental sustainability and national business interests.

For more information, visit www.indialca.com or contact ILCM Secretariat at ilcm@ficci.com
